## WORLD CONGRESS

After the tremendous success of the inaugural Joint World Congress of the IFA-ISA-ICA that took place in Hiroshima, Japan, in July 2018, the three international associations of specialists and support groups focusing on fluency disorders (stuttering and cluttering) have decided to collaborate once again in organizing a second Joint World Congress on Fluency Disorders. The Congress will take place from July 22<sup>nd</sup> to 25<sup>th</sup>, 2021, in Montréal, Québec, Canada.

This major event will bring together speech-language pathologists and fundamental researchers studying various aspects of fluency disorders (etiologies, therapeutic approaches, genetics, pharmacology, neuroimaging studies, etc.). In addition, the involvement of the ISA and ICA, as well as the two major Canadian stuttering support associations (ABC and CSA), will certainly attract a large number of individuals who are actively involved in stuttering and cluttering support groups.

See you in Montréal in July 2021!
